

## Need Extra Help?

At JIT Remediation & Restoration Inc., we understand that natural disasters can hit any part of the country. Torrential rainfalls, ice storms, tornadoes, blizzards, wildfires, and a host of other weather events can create considerable disruption in the affected area and can turn many lives upside down.

We also understand that when an insurance company is forced to categorize the event as a CAT, it is often because they are overwhelmed by the number of properties needing emergency services and repairs and subsequently are struggling to meet their normal service level commitments.

JIT can help!

JIT is already preferred contractors for some major insurance companies and care for all their customers in the Ottawa and Eastern Ontario region. Our selection demonstrates that JIT has been able to meet or exceed claims industry standards of professionalism, guaranteed workmanship and customer satisfaction and qualifies us to do any insurance work and though JIT may not be on the preferred contractor list of your insurance company, we believe it's only a matter of time before you begin to recognize the value that we would bring to your customers.

If your company is looking to add certified, experienced contractors, capable of performing your work according to accepted industry standards, then you need to look no further than JIT. We can provide immediate help in two ways:

- We can handle some of the existing claims that have the potential to get “ugly” if they are not urgently dealt with; and/or
- We can handle some of the new claims in the Ottawa area, given that your prime contractors are likely overwhelmed with their existing workload.

Our staff are experienced specialists, certified in fire and smoke restoration, mould remediation, water damage restoration, carpet cleaning and structural drying and follow IICRC industry standards for
